

The Thermo Scientific GRAMS Team is pleased to announce a series of 90-minute Web based training sessions focused on GRAMS Spectroscopy Software, Spectral ID Library Searching, and PLSplus/IQ Chemometrics. You will gain first-hand knowledge on utilizing GRAMS/AI software effectively for a variety of data display and analysis tasks, Spectral ID for spectral searching tasks, and PLSplus/IQ software for qualitative and quantitative spectral analysis with multivariate chemometric methods.

Classes are held on Wednesdays at 10:00 am Eastern Standard Time. The following list of topics will be offered. Each session is offered at US \$99.00 per company representative. The sessions will include a question and answer period following the presentation to address your specific questions. Please contact sales.informatics@thermofisher.com to sign up for a course.

Summer 2010 Web Session Schedule

June 16, July 15, August 4: **Getting Started with GRAMS AI Version 9** – introductory course for new users covering the basic concepts (traces, workbooks, etc.), how to open files, import foreign data, zooming and scaling, copying data to other applications (Word, Excel, etc), and other basic functionality.

June 23, July 21, August 18: **Building models with GRAMS IQ** – just the basic steps for how to create a training set, set-up experiments, and analyze results

June 30, July 28, August 25: **Model optimization with GRAMS IQ** – using the report viewer to identify outliers, selecting appropriate preprocessing options, region selection
